

Jefferson County Health Department
will be scheduling extra appointments for

Back-to-School Shots

Tuesdays & Thursdays

May 21 - August 15, 2019

Students entering 7th and 12th grade in West Virginia must have Tdap and meningococcal vaccines before school starts on August 19. West Virginia only allows medical exemptions to immunizations, so if your child doesn't get the required shots in time they won't be allowed to attend school until they catch up!

We will not be able to have walk-in clinics this year, so please make an appointment as soon as possible. Before scheduling you will need to send a copy of your child's shot record and insurance information to JeffersonLHD@wv.gov or fax to 304-728-3319. Uninsured patients 18 and under are covered by the low-cost Vaccines for Children Program.

Required vaccines may vary based on age and previous vaccinations. For more information, visit oeeps.wv.gov, click on "Immunizations" then select "Childcare, School, and College Requirements."
